# **UTAH - WEEKLY INFLUENZA SUMMARY** MMWR Week 2 (01/07/07 - 01/13/07) - Posted 01/17/07

## **UTAH - WEEKLY INFLUENZA TEXT SUMMARY**

### Influenza Activity in Utah:

Influenza and other respiratory viruses are circulating in Utah at this point, but influenza-like illness activity remains low. Forty-five influenza-associated hospitalizations (28 Type A, 11 Type B and 6 Unknown) have been reported to the UDOH as of present. This website will be updated every Wednesday by 1:00 PM.

As of 1/17/2007, no pediatric influenza-associated deaths have been reported in Utah for the current season.

National influenza surveillance data can be found at www.cdc.gov/flu. Please note, states determine for themselves how to estimate weekly influenza activity. The classification system used in Utah primarily serves to provide a geographical description of how influenza is circulating in the state.

## **INFLUENZA PREVENTION**

### How to protect yourself and others:

- 1. Utahns should get an influenza vaccine.
  \*\*Contact your provider or the Immunization Hotline (1-800-275-0659) to locate an influenza shot.
- 2. All Utahns should practice "respiratory etiquette" to reduce the spread of respiratory diseases.

  \*\* Stay away from other people when you are sick
- Stay away from other people when you are sick
- \*\* Cover your mouth and nose with a disposable tissue when you cough or sneeze. Throw the tissue away.
- \*\* Wash your hands.
- 3. We urge schools and employers to be supportive of these preventive measures.
